

Lull Telehandler Attachments

Lull telehandlers have been providing precision load placement since the year 1959. Whether the task entails positioning heavy steel, landing loads on scaffolding or transferring loads, utilizing a Lull telehandler will help make the work go easier and faster. These units are complete along with the patented Stabil-Trak stability system to ensure operator confidence.

The horizontal placement system by Lull is able to supply 80 inches of boom travel for precision placement functionality. There are even several optional Lull accessories for their telehandlers to help do any work.
